#### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Asaf Batelman on 11/26/2008.

The application has been amended as follows: Cancel claims 1-10, 21, and 23.

#### REASONS FOR ALLOWANCE

Claims 11, 13-20, 22 and 24 are allowed.

The following is an examiner's statement of reasons for allowance:

The limitations in claims 11 and 24:

"wherein the gate insulation film is formed according to a plasma CVD technology" when read in view of the whole distinguishes over the prior art of record as there is no device made according to this method, nor a reasonably obvious variant of this method. Notable differences include the fact that according to this method an gate insulation film including a silicon and a metal is formed according to a plasma CVD technology.

- a. The limitations in claim 11 being sufficient to distinguish claims 13-20 and 22, which depend from claim 11, over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
